

„Let the world know“ information sheet

Dear friends,

unfortunately, we notice that doubts are increasingly being expressed about the unbelievable atrocities perpetrated by Hamas on October 7th, or that many have not even grasped the dimension of the crimes – a breach of civilization that affects everyone in the world. We have therefore developed the **„Let the world know“ information sheet**. You can use it at solidarity events and memorial sites for the massacre and requesting the release of the abductees.

By pointing to two websites that document these crimes, we want to draw attention to these crimes. These images and eyewitness accounts are difficult to bear. But this is the only way we can reach the hearts of those who turn away due to ignorance or a lack of empathy.

The QR codes lead to the following sites:

1. <https://www.hamas-massacre.net/>

is supported by the Israeli government and is used to document the crimes by Hamas on October 7th with video and images.

2. <https://www.october7.org>

is a site initiated by volunteers in Israel, where testimonies are collected and published.

Please do **NOT** use this sheet for unaccompanied activities.
The risk of minors accessing these sites and being harmed
is too great.

Use this poster **to accompany activities** where you can be contacted, such as:

- **Demonstrations**
- **Vigils**
- **Memorial activities**

Honestly-Concerned e.V.

Attached you will find the poster in two versions, one in RED as well as a B/W version.

The atrocities of Hamas

Let the world know!

[Hamas-Massacre.net](https://hamas-massacre.net)

**Documentation
of the massacre**

October7.org

**Eyewitness accounts
from survivors**

CAUTION: The websites contain depictions or descriptions of extreme violence and war crimes. They may elicit emotional reactions and be psychologically distressing.
Not suitable for children under 18 years.

Never forget what happened. Never forget who they are.
